When this night is over and we have gone our ways  
Please just know that you've got me  
Anytime you call I'll be there for the fall  
And I will stay with you through it all

I will take your hand when no one will  
I will keep these secrets that we spill  
And I will be the one to hold onto  
'Cause I love, I love you

'Cause wet rocks and waiting rooms  
Are how I like to say that I love you  
I know that I can be so obvious to you  
But it's true

When this night is over and we have gone our ways  
Please just know that you've changed me  
You've helped me to be better and be just who I am  
For you I wrote this song, I even cut my hair
