You like to goof off all day

While your neighbor's out there mowing the lawn

You can't forget what's important

Hey man, you've got it going on all so wrong

I stomp on your shoes and I kick on your shins

You know I've did it before you know I'll do it again

Cuz I'm a bad son of a bitch and I was never your friend

You gotta change up ways every now and then

You heard what I said, yeah, but did I say what'cha heard

When your perception is blurred a pit bull looks like a bird

In the words of a wise man from o'er round the bend

You gotta think about the message you send

You can't forget what's important

You must remember who inspired you

Unless they're now on the TV and then you've got a screw loose or two

I'm talking aboutâ€¦

When it feels like life is keeping you down you gotta

You gotta get back up on your feet

I'm talking aboutâ€¦

You gotta clap your hands and stomp your shoes

To the rhythm of the boogey beat beat beat

Yeah!

You like to goof off all day while your neighbors out there mowing the lawn

You can't forget what's important

Hey man you've got it going on all so wrong

Everybody se la vie say so

In a beautiful haze these days we go

If you're not fond of some TV trays

It's the injection of these laser rays

Always

I'm feeling se la vie say so

In a beautiful haze these days we go

If you're not fond of toonami waves

It's the infection of your crazy ways

You can't forget what's important

You must remember who inspired you

Unless they're now on the TV

And then you've got a screw loose or two

You like to jack off all day

While your nanny's out there mowing the lawn

You can't forget what's important

Hey man, you've got it going on all so wrong

Oh no!
