[Intro]

What can we expect from Tupac in '92?

[Outro]

Static - it's gon' be static, for sure. 'Cause what the rap audience ain't ready for, it's a real person - you know what I wanna say, a real N.I.G.G.A. I'm comin' out a hundred percent real, I ain't compromisin' nothin', anybody that talk about me got problems, you know what I'm sayin'? It's gon' be straight up, like if I was a street person, that's how I'm comin' at the whole world, and I'm bein' real about it, I'mma grow with my music. The music I make now, my next album's gon' be better and more slammin', you know what I'm sayin'? But at the same toke, I'm gonna be even that much more potent next year, and I don't want no garbage - anybody talk about me, anybody dis Digital Underground, they got problems, 'cause we large and we all over the country, anybody dis us they gon' get stomped. That's word is bond 'cause this is money - so anybody try to take away Digital Underground's money as a whole, they got a problem, we gon' suffocate 'em.
