"Devil's Brigade"

We ride in the night
The Darkness cloaking all our sins
We live for the fight
The puppets of hypocrisy, we ride

And we ride.
And we'll ride till death's destruction.

Whoah
Your heart beats next to me
Whoah
At the bottom of the scarlet sea

A city of lights
Temptation's claws outstretched to me
All Earthly delights
But Eden's burning endlessly tonight

And we ride.
And we'll ride till death's destruction.

Whoah
Your heart beats next to me
Whoah
At the bottom of the scarlet sea

Whoah
Your heart beats next to me
Whoah
At the bottom of the scarlet sea
Bottom of the scarlet sea
Bottom of the scarlet sea
