The earth stands still
As cities burn
Infected souls are gathering

God left this place
Some time ago
Now chaos reigns over everything

Don't wanna be a hero
Just want to be right here with you
If you would be my angel
Then I know we would get through

I gotta gotta gotta get out
Of this Godforsaken town
I know you'll be there with me
God knows you'll be there with me

Gotta gotta gotta get out
Of this Godforsaken town
I know you'll be there with me
God knows you'll be there with me
When they attack, when they attack
Oh-Woah oh-woah woaaaaahhh

The time of man is coming round
But till we're through I'll keep holding on

Don't wanna be a hero
Just want to be right here with you
If you would be my angel
Then I know we would get through

I gotta gotta gotta get out
Of this Godforsaken town
I know you'll be there with me
God knows you'll be there with me

Gotta gotta gotta get out
I know you'll be there with me
Of this Godforsaken town

God knows you'll be there with me
When they attack, when they attack
Oh-Woah oh-woah woooooahhh

Gotta get out
Gotta gotta get out
Gotta gotta get out

I gotta gotta gotta get out
Of this Godforsaken town
I know you'll be there with me
God knows you'll be there with me

Gotta gotta gotta get out
Of this Godforsaken town
I know you'll be there with me
God knows you'll be there with me
When they attack, when they attack
Oh-Woah oh-woooooahhh
