I am the person you see in the mir
I am the person you can drawn in
I am watching your every move
I hope you know that I'm here for you

Chorus:

I am Christ I died for you
I really want a relationship with you
if it's me you truly seek
you have to honestly admit your weak
I really love you
and that's why I died
so now and meet you can confide

I'm watching you I know your every thought
I am the reason for everything you've got
in my death I thought of my children
that's why the gap it's now filled in

Chorus:

I am Christ I died for you
I really want a relationship with you
if it's me you truly seek
you have to honestly admit your weak
I really love you
and that's why I died
so now and meet you can confide

I love you children with all of my heart
and when you're with me you're set apart
and never forget you can pray
I am with you all the way

[Chorus:]
