You're my comfort, my redeemer, my deliver, my friend  
You're my master and my father, my sustainer to the end  
My supplier, you're my sustenance, my hope, my everything  
You're my brother and my healer, my joy, my setter free  
You're my refuge, you're my victory  
My exalter and my piece  
You're my fearless leader, my conqueror  
My strength and my strong shield  
You're my light, my refiner, my king, my only holy life  
You're my love, my only answer, my over comer and nurture by the light  
For I know I'm gonna live through the ages  
Yes I know I'm gonna live for my Jesus up above  
Whoa I know I'm gonna live, an ever lasting life  
And I live that ever lasting life right now

You're my wonder, you're my destiny  
My rock, my one desire  
My encouragement, my shelter  
My deliverance, my fire  
I could list your attributes forever, lord  
But I'll stick with these for now  
My ... my faith, my song, my belief, my confidence  
You're my keeper, you're the grin I wear  
The feet I dance the flag I fly  
You're my righteousness, my savior  
You're the twinkle in my eyes  
You're my boldness, my direction, my guide, my counselor  
You're the lifter up of my head, lord, that's who you are

For I know I'm gonna live through the ages  
Yes I know I'm gonna live for my Jesus up above  
Whoa I know I'm gonna live, an ever lasting life  
And I live that ever lasting life right now X 2
