[Intro: Janet Jackson "Funny How Time Flies (When You're Having Fun)" sample] Where it all went? Time passed us by Just when, it seemed, the fun, began [Chorus: Janet Jackson "Funny How Time Flies (When You're Having Fun)" sample] Funny, how, time, flies, when, you're, having, fun. ooh baby Funny, how, time, flies, when, you're, having, fun, oh baby, I don't know why [Cno Evil] I love hip hop so much I don't need to cuss, with rhymes, I bust, but (But why) Do I love hip hop so much Is it cuz it's relaxin', causes so much attraction (But why) Do I love hip hop forever Or is it just a phase, do I ever get my raise, and (But why) Do I love hip hop, or does it love me Was I born with skills, that's why it's so easy? (But why) Do I love hip hop so much, in a crunch I can make instrumentals in a bunch and (But why) Does this beat moan on the track Makin' love to the drums, put my snare on the hi-hat (But why) Did I put the bass all in her face Now mush it all together, she breathes during the space, and (But to me) Ooooooh, oh my God I think I just created a brand new song (Why) Did she say to do it slow? She likes it from the back, when the drum gently rolls (But why) Does she love when I spit in the mic Rophone, all alone, at home, in a zone (But why) Does time, keep on slippin' The fun is just beginning, I thought that I was winnin' (But why) Do I love hip hop, and it's too late To break away, cuz I was born in that mind state (But why) Oh my god, I think that I'm in love Get away from that fool, he's all of the above (But why) He's in it for the sex, money and drugs Back away from that fool, before he grabs the glove (But why) Would he go O.J., on my favorite girl He thinks of you of as a piece of land (But to me) but to me, you're a whole world And in 19 years, you defined that word [Chorus] [Li-Mouse] Aiyo, Cno, send me that new beat you created Four seconds in, and I already related Smooth sounds, that'll send chills down your spine Make you cool when times get tough at the grind Funny how times flies by when you're having fun But moves so slow when you're tryna get a bread crumb Hold up and just, look at your surrounding Seek the Earth and sky, even if it's corny

sounding Choose paths, with the least resistance
Money grows, on the tree of persistence Aggression,
love, happiness, and fear Contained in hip hop so, you
can hear How someone like me, is just like you Going
through school, look back to see how I grew Sunny
days, doing research paper Saying this better get an A,
my lord savior Haha, yeah I'm still going through that
Expectations make it hard, so you sit back Screw this
paper, and forget this class I hate the teacher, and I
ain't never gonna pass Hold up, guy, and take that
deep breath Minimize MS Word, have fun to relieve
stress Don't put it off for too long though Come back
refreshed, all dressed, so you can resume your flow
Bang out that paper in like an hour or two File, print, Ok,
now you go chill with your crew You blink twice, and you
up on that stage Square hats and all that, flip the next
page Think back when you was at the desk, all vexed
That one breath, put clarity to the text New chapter,
what will you do next? Get the career job, receive your
fat monthly checks [Chorus 2X]
