Girl in the morning after, with a lie down and a sleep  
and tell me  
All about the music makers and the dreamers of our  
dreams  
I don't need no introduction to your crazy little life  
if I want to, talk about surprises and why you keep  
surprising me  
Sunshine through my window it is just a tease It wakes  
me up to tell me I was sound asleep  
Sunshine through my window it is just a tease It wakes  
me up when I'm asleep waaayoo Wakes me up when  
I'm asleep  
What lifes are all about living for the nights we can't  
remember

With those we wont forgot its the company we keep  
Some say that when you die your life it flashes right  
before you  
Well get up on your feet and give yourself something  
to sing  
Sunshine through my window it is just a tease It wakes  
me up to tell me I was sound asleep  
Sunshine through my window it is just a tease It wakes  
me up when I'm asleep waaayoo Wakes me up when  
I'm asleep  
Well its in the eyes its in the eyes  
So come inside oh come inside  
Well its in the eyes its in the eyes, eyes, eyes, eyes
