Sell out all the memories of all of your friends.
Get to pay with all your loved ones when you just pretend.
It's what you get for being such a fraud.
And it's so damn clear what's been going on around here.

Times changed and we are not the fucking same anymore.
Tables turned, we're gonna change the way it worked before.
You won't stand your ground, no you won't.
Because you've never seen it done like this.

(It's alright) to say it sucks, but we never do.
(It's okay), to let it show how much we want it to.
(And it's time) we need some kind of revolution.
To make it bleed, yeah let it bleed, at least give it a try.
It's our sign to cause a meltdown.
(While singing this song). La da di da di da di da dida.
We put you back in your place, where you belong.
We put you back in your place, and drop the biggest bomb.

Oh woahh oh wohh, oh woahh oh wohh. It's all for nothing now.

Oh woahh oh wohh, oh woahh oh wohh. It's all for nothing.

Maybe you've seen my face on TV,
but I will never be the way that I used to be.
It's you that got a problem, man.
Cause when you're sleeping around.
You're fucking around, that makes you a fucking whore.

(You're so pathetic, you're so pathetic) Cause you want it for yourself
(You're so pathetic, you're so pathetic, hahaha) It's you and no one else

We're coming to get you now, we're coming to get you.
We are the monsters in your closet
and the ones that's hiding under you're bed.
Were coming to get you now!

(It's alright) to say it sucks, but we never do.
(It's okay), to let it show how much we want it to.
(And it's time) we need some kind of revolution.
To make it bleed, yeah let it bleed, at least give it a try.
It's our sign to cause a meltdown.
(While singing this song). La da di da di da di da dida.
We put you back in your place, where you belong.
We put you back in your place, and drop the biggest
bomb.

Oh woahh oh wohh, oh woahh oh wohh. It's all for
nothing now.

Oh woahh oh wohh, oh woahh oh wohh.

I'm not better than the way that I used to be.
I'm not better than the way that I used to be.
I'm not better than the way that I used to be. Aha, be.

I'm not better than the way that I used to be.
I will never be the way that I used to be.
I will never be the way that I used to be

Sell out! Sell out! Sell out!
Sell out! Oh yeah!
Sell out! Sell out! Sell out,
ohhh comon'!

To say it sucks, but we never do.
(It's okay), to let it show how much we want it to.
(And it's time) we need some kind of revolution.
To make it bleed, yeah let it bleed, at least give it a try.
It's our sign to cause a meltdown.
(While singing this song). La da di da di da di da dida.
We put you back in your place, where you belong.
We put you back in your place, and drop the biggest
bomb.
And drop the biggest bomb,

and drop a big as bomb.
(Bomb, bomb, bomb, bomb)
