Now the battle is over, the clouds hanging low  
Dead bodies lie on the ground  
Marched into slaughter, lost souls fought in vain  
No glory or pride to be found

Gotta get out of here, don't want to be around  
Trying to find my way home  
Gotta get out of here, don't want to be around  
Trying to find my way home

Fighting for honor and medals of gold  
But they were to kill or be killed  
Slaying the enemy, not knowing why  
Keep low and fire at will

Gotta get out of here, don't want to be around  
Trying to find my way home  
Gotta get out of here, don't want to be around  
Trying to find my way home

Lost out in action, long gone forever  
Just a boy that died in vain  
His mother is crying, his father not proud  
Twisted gray face in the rain

Gotta get out of here, don't want to be around  
Trying to find my way home  
Gotta get out of here, don't want to be around  
Trying to find my way home

Gotta get out of here, don't want to be around  
Trying to find my way home  
Gotta get out of here, don't want to be around  
Trying to find my way home
