

## Yngwie Malmsteen "Stand"

It all began with an experiment that failed  
Meant for the enemy, unleashed on us  
Everything that was on course has been derailed  
We're all caught in the rush

Holding poison within  
This battle no one wins  
No

Stand  
The stand

Plague came down on us like a ton of bricks  
Generals spilled their bag of tricks  
Like an avalanche roaring over you  
Now there's nothing left to do

No one left to burn  
Captain Trips has taken all  
No

Stand  
The stand  
Try to understand  
The stand

Stand  
The stand  
Try to understand  
The stand

Try to understand  
Try to understand  
The stand  
Stand
