Climb up the mountain  
That reaches the sky  
Up there's a tower  
A thousand miles high  
There you must trespass  
Escaping His knights  
Over the drawbridge  
There you must hide  
In there dwells the Wizard  
His breath like a blizzard  
Ancient incantation  
Evil revelations

For thousands of years  
They have been searching for him high and low  
The Wizard is here only to disappear

He hides from the world

In through the dungeons  
Weapons are drawn  
Passage in hiding  
Dead before dawn  
Master of witchcraft  
Friend of the beast  
Wisdom through tempest from the East

In there dwells the Wizard  
His face like a lizard  
Ancient incantations  
Evil revelations

For thousands of years  
They have been searching for him high and low  
The Wizard is here only to disappear  
For thousands of years  
They have been searching for him high and low  
The Wizard is here only to reappear

He hides from the world

For thousands of years  
They have been searching for him high and low  
The Wizard is here only to disappear  
For thousands of years  
They have been searching for him high and low  
The Wizard is here only to reappear

He hides from the world
