[Hook]

How ya doing?

Nice 2 meet u

Cause were both grown adults

And I really wanna get to know you baby

[Frank]

It's Time for Nitty just ta

Approach you slow with the

Shit to get you and drive just like a flow shifter

That's how nitty get ya

And girl I'm sorry but

I'm a squirrel in your world trying to get a nut

That's right Nitty is a grown ass man

seen the whole damn world from Detroit to Japan

And I've done touch many ladies all shapes and types

But I wanna touch your body get it wet tonight

Cause we adults girl and we can do what we want

This B2K4 we can bump bump bump girl

Look at the way your movin', it's in the way you walk

You make a player bump his dubs on the curb to talk

I know I'm movin fast, but let a player win

I wanna get you naked , and now you fill it in

And we can keep it just between me and you

Dank ain't even got to know the things that we do,

mama

No disrespect but it is what it is

I'm not trying ta end up married with kids so

I use that good safety equiptment

And a magical wit it won't leave a finger print

And we can keep it just between you and me

Girl your looking mighty good in those jeans like free

so ...

[Hook]

[Dank]

Yo I know you see me looking at you

And your shit is together your body's supernatural

And I really wanna get closer than close with you

Bang you low in the post like I'm supposed to hit you

I'm trying to get it crackin' get it going down baby
I know I'm talking fast and it might sound crazy
But you phenomenal got a player stuck
Ain't nothing wrong with 2 adults doing the grown up
and
We can keep it just between me and you
Frank ain't even gotta know the things that we do but
I gotta have you baby girl in the worst way
And me & you can party like it's your birthday
So where you at girl I need your affection
I got the blunts the liquour and the protection
That's what it is girl we gotta have safe sex
And when we leave from here go to my crib next
And we can keep it just between me and you
I wanna get to know you and we could be cool too
But right now...
