Dance floor baby like the way you move
In sync girl with the bad girl groove
Dance floor baby with the devil inside
Dance floor baby gotta make you mine

See that rock n roll girl with that flask in her purse
Baby so bad she's probably born in a hearse
Raised in the graveyard she's a tombstone tramp
Raise the dead and feel a rise in my pants

I'm your Halloween man baby get on top
Take off your clothes and lets make the casket rock
The booze will wear off the sun will rise
Dance floor baby gotta make you mine

Dance floor baby like the way you move
In sync girl with the bad girl groove
Dance floor baby with the devil inside
Dance floor baby gotta make you mine

Check out my girl under the disco ball
That zombie shake fueled with alcohol
The room is spinning and the party is on
Dance floor baby you're the only one

Two pints of whiskey makes my feet go crazy
You got me dirty dancing like Patrick Swayze
We'll still be dancing when we're six feet dep
Dance floor baby do the dead girl dance for me

Dance floor baby like the way you move
In sync girl with the bad girl groove
Dance floor baby with the devil inside
Dance floor baby gotta make you mine
