Blank stares and who cares
Waiting to surrender with your hands in the air
There is no one under the sun
Got my finger on the trigger and you're holding the
gun

Like rats trapped why even bother
Smash and grab for another dollar
And you, you can give a flying shit for me

I know one day it won't even matter
So my whole damn world went to another disaster
I am what I am
[?]
Yeah I am what I am
Mr. Disaster ready to go
Mr. Disaster ready to go

Wide eyes in the distance
Watching her following my every move
I'm over here Mr. Policeman
I know my rights just do what you do

Like rats trapped why even bother
Smash and grab for another dollar
And you, you can give a flying shit for me

I know one day it won't even matter
So my whole damn world went to another disaster
I am what I am
[?]
Yeah I am what I am
Mr. Disaster

I know one day it won't even matter
So my whole damn world went to another disaster
I am what I am
[?]
Yeah I am what I am
Mr. Disaster ready to go
Mr. Disaster ready to go

Between the bars on the other side
I [?] with you a dangerous mind
You know what it means, you know [?]
I dream [?] wasting my time

Like rats trapped why even bother
Smash and grab for another dollar
And you, you can give a flying shit for me

I know one day it won't even matter
So my whole damn world went to another disaster
I am what I am
[?]
Yeah I am what I am
Mr. Disaster

I know one day it won't even matter
So my whole damn world went to another disaster
I am what I am
[?]
Yeah I am what I am
Mr. Disaster ready to go
Mr. Disaster ready to go
Mr. Disaster ready to go
