Take me down, 6 underground

The ground beneath your feet

Laid out low, nothing to go

Nowhere a way to meet

I've got a head full of drought, down here

So far off losing it, round here

Overground, watch this space

I'm open to falling from grace

Calm me down, bring it round

To way high off your street

I can see like nothing else

In me you're better than I wanna be

Don't think cause I understand, I care

Don't think cause I'm talking, we're friends

Overground, watch this space

I'm open to falling from grace

\*Space\*

Talk me down, safe and sound

Too strung up to sleep

Wear me out, scream and shout

Swear my time's never cheap  
I fake my life liked I've lived, too much  
I take whatever you're giving, not enough  
Overground, watch this space  
I'm open to falling from grace  
I fake my life liked I've lived, too much  
I take whatever you're giving, not enough  
Overground, watch this space  
I'm open to falling from grace
