

Yo Gabba Gabba!

"All My Friends Are Different"

Visit "[All My Friends Are Different](#)" on MotoLyrics.com

All my friends are different, but I still love them all the same

Archibald is purple, the magic balls are round
Leslie loves to sparkle, and dazzle all around (Yeah!)
DJ Lance is magic, he loves to dance and sing (I do!)
He makes the toys come to life with the magic that he brings

So many good friends we know
All my friends are different, but we love them all the same
Our friends are different, but we love them all the same

Plex, can you beam us down?
Sure!

Plex the yellow robot, he has a special ray (Hello!)
He is such a faithful friend, he knows just what to say
Muno is so tall and red, he only has one eye (Hi!)
He is so excited, and laughing all the time
The rocks and bugs who live with me, they help me to feel glad (Hey!)
Gooble is a friend of mine even though he is so sad

So many good friends we know
All my friends are different, but we love them all the same
Our friends are different, but we love them all the same

Foofa is so cute and pink with a flower on her head (Hi!)
She is kind to everyone, she loves her flower bed

I love the hills and flower beds, the grow and smell so sweet
I also love my animals, they love to play with me

So many good friends we know
All my friends are different, but we love them all the

same
Our friends are different, but we love them all the
same

Brobee is so small and soft, he has a great big heart
(Hey!)
When he smiles so big and wide, sometimes he is so
smart
I love all my trees and I love to eat my lunch
All the birds who fly so high, I love so very much

So many good friends we know
All my friends are different, but we love them all the
same
Our friends are different, but we love them all the
same

Toodee is a cat dragon, she's true blue through and
through (Hi!)
She's so fun to have around, a friend to me and you
My ice friends are so kind to me, I love to hide and play
The oksy bugs are fun to watch, they build and work all
day

So many good friends we know
All my friends are different, but we love them all the
same
Our friends are different, but we love them all the
same
