

Yo Gabba Gabba! **"I'm A Robot"**

Visit "[I'm A Robot](#)" on MotoLyrics.com

Let's all play like an imagining robot
If you believe I have wide open arms
How has someone saw a one with dots?
I would tell you that could be correct
Well it's kind of pretty hard to think
How would you lead me with scary old eyes?
But imagine you could make a wink
(Just believe how you would learn the fact)
So this is my announcement to you
If I do something that is more silly anyway
How to be a robot all day
Oh I'm sure that feels ay-okay
Let's play this game (I'm a robot)
I would shake hands with you all the time
We are gonna pretend we are robots
Because I would be a friend
We hope you will join in with us
I would play with you all the time
Come on and feel the joint for now so robot-walk
Because I'll be a friend till the end
Go here and remember don't make a fuss
If I do something more silly anyway
I am a robot, I am a robot, I am a robot
walking each day
Oh I'm sure that feels ay-okay
I am imagining how I don't know what a robot usually is
To be a tired buffaloe
It's because I can't tell you each secret
you tell
You can imagine anything
What will you do if I tell other ones
Come on and make sure we get room for you to join in
(Oh) I will make sure not to yelp
We're gonna make this really fun
If I do something more silly anyway
So come on let's have a bun
Oh I'm sure that feels ay-okay
I hope you will all enjoy the show
I would shake hands with you all the time
I appreciate you're gonna low-go
Because I would be a friend
So this is my attention to you
I would play with you all the time
How to be a robot all night
Because I'll be a friend till the end
Let's play this game (I am a robot)
If I do something more silly anyway
I'M-A-ROBOT!
Oh I'm sure that feels ay-okay
How would you feel if I sang like it too
Yes if I do something more silly anyway
Yes we're gonna say goodbye any minute now
If I do something more silly anyway
How would you walk if I will be the leader
(If you just walk any way you choose)
If I do something more silly anyway
Oh I'm sure that feels ay-okay
If I go out on robot tour (I'll be calling names a lot, Oh yeah)
