"Almost Dead"

No more gods, no more graves, are you friend or
fiend?
No more life, no more death, somewhere in between.

No more gods, no more graves, are you friend or
fiend?
No more life, no more death, somewhere in between.

Well, we're almost dead, almost dead, almost dead to
the world.
Almost dead, almost dead, almost dead to the world.

Heaven can't save us, hell is a joke, no place left to go.
What you see you cannot believe, but when we rise
you'll know.

Well, we're almost dead, almost dead, almost dead to
the world.
Almost dead, almost dead, almost dead to the world.

Well, we're almost dead, almost dead, almost dead to
the world.
Almost dead, almost dead, almost dead to the world.

Well, we're almost dead, almost dead, almost dead to
the world.
Almost dead, almost dead, almost dead to the world.

Well, we're almost dead.

(You choose...you cannot lose...)
