Verse 1:

Every day that goes by
Every moment you'll find
There's a broken heart
A tear is cried
A wish is made
That never comes true
And somewhere someone needs to be found

Chorus:

The things we do, the things we say
Are gentle rays of hope that touch us all each day
The things we do, the things we say
These are the greatest gifts we'll ever give away
The things we do

Verse 2:

Every day in this life
Every moment you'll find
A heart is healed
A dream is found
A tear is dried
And laughter is heard
And somehow someone's life will be changed by

Chorus:

The things we do, the things we say
Are gentle rays of hope that touch us all each day
The things we do, the things we say
These are the greatest gifts we'll ever give away
The things we do

Bridge:

Oh every hand that has been held
Has reached out for somebody else
In every move we make
Every day
We pass love on this way

Chorus
