When it seems like every other day tends to push me
away
From desired actions and the things I should say
When the price is too hard to pay, Ill save it for another
day

Procrastination can have my standing ovation
tomorrow
Not today Ill forget about it anyway
In a few days Ill go to my doctor and say
Can I have some medication for my procrastination?

I just bought a tire for a car that I had totaled in
December was the month that was supposed to be
November
I was driving way too late. CRAP, I wasnt going straight
And I really thought the speed limit was higher
And I waited in the car until I realized that it was on
FIRE!

Procrastination can have my standing ovation
tomorrow
Not today Ill forget about it anyway.
In a few weeks Ill go to my doctor and say
Can I have some medication for my procrastination?

I got my drivers license when I was 19
See, youre supposed to get it earlier but
I dont really know what early means and then I
Rented a tux the week after it was due
Tripped on my face cuz I forgot to tie my shoe
When I was running way too late for some other stupid
thing I had to do.

Procrastination can have my standing ovation
tomorrow
Not today I dont wanna do it anyway.
In a few months Ill go to my doctor and say
Can I have some medication for my procrastination?

I guess I am stuck in this continuum of time

That I am wasting every second that I have of my whole
life.

And sometimes I am late cuz I was busy thinking I
should be on time.

Procrastination will never get my standing ovation

Not today cuz I didnt finish yesterday

In a few years Ill go to my doctor and hell say:

Im really sorry son but I think your appointment was
yesterday

And the last time you were here, we didnt get your co-
pay.
