Lay me down
And say you stop this car crash
Radio is dead but not the demons in my head

Show me a state
Where soundtracks hurts at right place

Fill me in
Keep me out
Cut me up
Send me away
A colour show
- killing all names
And there are no other ways

My fingerprints are all over your place
How long will it take to forget my face?
If this elevator
Ever stops I know you'll be there
(I know you'll be there)

Fill me in
Keep me out
Cut me up
Send me away
A colour show
- killing all names
And there are no other ways

Fill me in
Keep me out
Cut me up
Send me away
A colour show
- killing all names
And there are no other ways
