We're not more that counted places
Just like all the dissapeared faces
Can we climb this high
- ride some coloured waves this night?

Summer comes down in your eyes
I want to put everything there
But there are no words
That will save me
This time

Can we climb this high
- ride some coloured waves this night?

Can we climb this high
- ride some coloured waves this night?

Can we climb this high
- ride some coloured waves this night?

Can we climb this high
- ride some coloured waves this night?
