The up and down will never meet  
Only get placed at different seats  
The light is on  
And electricity  
Dance with the heat  
The waving hands under your bed  
Are ready to tell you all about the things you've fled

Help me to feel safe, save me from me and myself  
Help me to feel safe, save me from me and myself

The up and down will never meet  
And create that perfect beat  
I guess I am wrong  
But feel pretty meek  
It's just so hard to listen when you speak  
The waving hands under your bed  
Are ready to tell you all about the things you've fled

Help me to feel safe, save me from me and myself  
Help me to feel safe, save me from me and myself
