(Yellow, Brown And Green)

Empty, alone and unreal
I want to feel
Undressed, cold and upset
I don't want to feel

You help me to fall asleep
To feel wonderful and free
So let me
Start the beat
And take away this misery
At least for tonight ..

Dirty, scared and hungry
I want to feel
Yellow, Brown and Green
Just let me be

You help me to fall asleep
To feel wonderful and free
So let me
Start the beat
And take away this misery
At least for tonight ..

You help me to fall asleep
To feel wonderful and free
So let me
Start the beat
And take away this misery
At least for tonight ..
