(Feat. Jason Caesar)

Uhuuu!

Yeah!

Hey! Been a minute since you've been alone,  
Family and friends stressed at home,  
Begging for a second to just mellow in your zone while  
it's here.

I got the butter soft cushions, blueberry cushion and  
,cooking!

Take a load off, take your clothes off,  
What you had planned?

You better blow off!

Because my lips and tongue are vicious,  
Take your breath before you get to say your favorite  
sentence!

Oh God! Say goodbye to the promises you ,  
You've been grounding too long,  
You need a moment to yourself, but invited me along  
Cause you love my palms, I'm the,.

Also brought that D along,  
Which is something that I know you wanna,  
And when the sun rise, all your stress be gone!  
All your stress be gone!

Because:

Chorus:

The night is young so real!  
Look at the moon, we're feeling free!  
The perfect time to pour a drink, tell me what you think!  
Baby we can find some,  
Shwaty you can take, and hold it!  
Yeah!

The night is young, the night is young!  
The night is young, the night is young!

The night is young, we are too,  
Said I'd always hold you down if you fall through.  
Promised the world is about to come true,  
And you're about to come too!  
Ha! That's a new moon shining down in the distance,

People quit to ..the last one is ,,  
You keep it all inside, let tonight be different,  
Release those inhibitions, let me show you what you're  
missing!  
..heart beating from the neck kisses.  
Take those pennies off,  
I can promise you won't miss it when I'll turn to lean on  
She tell us that she... some new positions.  
Sure you're a good Christian, but when I hit that pink  
spot  
I deliver like a pink dot!  
And when it's over we start again, party till the party  
ends,  
When you need a fix,

Chorus:

The night is young so real!  
Look at the moon, we're feeling free!  
The perfect time to pour a drink, tell me what you think!  
Baby we can find some,  
Shwaty you can take, and hold it!  
Yeah!  
The night is young, the night is young!  
The night is young, the night is young!

We waited long enough,  
I'm finally in the city,  
.. excitement in your night,  
Thought I told you,  
Tonight we're going hard, only we're stopping for the  
sun.  
And I'll be gone by the cracker,.  
So if you want me back, just pick up the phone!

Chorus:

The night is young so real!  
Look at the moon, we're feeling free!  
The perfect time to pour a drink, tell me what you think!  
Baby we can find some,  
Shwaty you can take, and hold it!  
Yeah!  
The night is young, the night is young!  
The night is young, the night is young!
