"Alone And Blue"

Don't leave me alone and blue
When all that I want is you
That bad dream I had
Should never come true
Don't leave me alone and blue
Don't leave me alone and blue

Don't kiss me and say goodbye
Could there be some other guy
What a shame, what a shame
You made your sweetheart cry
Don't kiss me and say goodbye
Don't kiss me and say goodbye

I'm beggin' you darlin', please
I'm down on two bended knees
You're breakin' my heart in two
Don't leave me alone and blue

A good boy he's done gone bad
Lost the best gal he's ever had
One look in the mirror
Is sadder than sad
A good boy he's done gone bad
A good boy he's done gone bad
