My heart is like a white line  
Divided (???) these feelings over you  
My mind, it is also like a white line  
(???) a man without a clue

You got me thinking there's a fire down below  
'Round and 'round in circles is far as I can go  
The same old repetition, feeling up and down again  
Sorry is a highway that never seems to end

Another day is ending, I feel my feet upon the ground  
And (???) walking home  
What do I care now if another day is ending  
The days will end until my name is carved in stone  
alone

[ Chorus ]

The time has come for leaving  
ti's time to fall away like the pedals leaving the rose  
but what 'cause this leaving  
i my heart breaking, the sound it never goes

[ chorus ]

The same old repetition, feeling up and down again  
Sorry is a highway that never seems to end
