Put on a pot of tea  
Come sit as close to me as you like  
I say we strike a match  
Something is bound to catch on fire  
And burn for a while

Let's stay in tonight  
There's not one thing outside these four walls  
That you and I will need  
Let's stay in  
Let's stay in

Tune in the radio  
Something for moving slow in the dark  
This is how time stands still  
Hearts racing on the thrill  
We rise and fall in each others' arms

Let's stay in tonight  
There's not one thing outside these four walls  
That you and I will need  
And it would be all right  
If well past midnight  
You are holding tight to me  
Let's stay in  
Let's stay in

Let's stay in tonight  
Music and moonlight  
Are everything that you and I will need  
And it will be all right  
If well past midnight  
You are holding tight to me  
Let's stay in  
Let's stay in  
Let's stay in  
Let's stay in
