Lord I miss that sweet march weather coz the summers  
left me with an aching head  
Folks'll say I'm doing so much better (yeah I'm talking  
to myself instead)

It's gonna be a cold cold winter  
Little ol' wine drinking, cocktail making, good for  
nothing days are spent  
My three days with Jimmy didn't last forever no  
Drinking to the friend we lost in my tent, yeah.

Damn it was a cold cold winter  
Little ol' wine drinking, cocktail making, good for  
nothing days are back

Taking off a little time I lost in my head - no  
Taking off a little time I lost in my mind to find my...

Time to find out what I'm drinking  
Drinking time to find out what I'm thinking  
Taking time to find out what I'm dreaming  
Drinking wine to find out everything I lost , it's ok

It's been a damn cold winter  
Tell me lies now but don't tell me love I ain't too late
