You, you are the only heartbeat that I hear at night  
I, I will always hear you even when your quiet  
You, you are all of me, please just make it right  
Cause we, we are made forever so let us shine so  
bright

Every day I am smiling never crying, and thats because  
your here  
Every night I am dreaming never claiming that my dear  
is near  
In my deepest hour your my tower, protect me from my  
tears  
In my birgthest moment your my content, please don't  
let me fear

(Five seconds to terminate this tape  
five, four, three, two, ONE!)

You, you are the only heartbeat that I hear at night  
I, I will always hear you even when your quiet  
You, you are all of me, please just make it right  
Cause we, we are made forever so let us shine so

Every night I am dreaming never claiming that my dear

You are all I neeeeeeeeeeeeeeeeeeeeeeeeeeeeeeeeeeeed!
