I Was Just Dreaming About You.
Now Here You Are.
But Now That I've Found You,
I've Got To Leave,
And That's Gonna Break My Heart.
No Time Left To Think
About What I Should Say.
Left With This Moment
And No Way To Hold It,
All My Plans Slip Away.

And I Will Remember Like The Star As He Fell From The
Sky.
But Baby Please Don't Fall On Me Now,
Cause I Don't Know How I'll Feel When I'm Without You.
But This Much Is For Sure.
I'll Love You Today And Tomorrow I'll Walk Out The
Door.

So Go On And Do Your Thing, Baby.
I'm Moving On To Do Mine.
You Wonder How I Stayed So Long,
I'm Just Wondering How To Say Goodbye
For Now. How Could It Come Down To This?
I Wasn't Looking For Memories.
I Didn't Need Someone Else To Miss.

And I Will Remember Like The Blackbird As He First Felt
The Sky.
But Baby Please Don't Fly On Me Now,
Cause I Don't Know How I'll Feel When I'm Without You.
But This Much Is For Sure.
I'll Love You Today And Tomorrow I'll Walk Out The
Door.

And I Will Remember Like The Dream Holding On As
The Morning Rushed In.
But Baby, Please Don't Forget Me Now,
Cause I Don't Know How I'll Feel When I'm Without You.
