spinning and spinning your web of lies
from your podium can you see me die?

keep your eyes always closed, forget what you know
and keep your mouth shut up so tight to give up the
fight

sitting and swimming in this mess youve made
from your pedestal can you see me? Can you see me in
my grave?

keep your eyes always closed, forget what you know
and keep your mouth shut up so tight to give up the
fight

just give me a little bit of hope and well hold onto it
just give me a little bit of hope
