"In Our Minds"

Visit "[In Our Minds](#)" on MotoLyrics.com

follow me well see everything to see
Ill follow you lets do everything to do
and pass the time going back in your minds
to a place you and I can leave it all behind

well stay up til the sun hits our eyes
on our backs staring up at deep blue skies
and we can close our eyes for the rest of our lives
when we go back in our minds

on the beach with the sand between our toes
get over here girl let me kiss your nose
and well pass the time going back in our minds
to candy apple fun where we share the only one

well stay up til the sun hits our eyes
on our backs staring up at deep blue skies
and we can close our eyes for the rest of our lives
when we go back in our minds
when we go back in our minds
