i guess it's time to say goodbye  
and let it all go just for now  
maybe our paths will cross again someday, somehow

we shared the world's greatest kiss and deep inside I  
know you'll miss  
it too  
maybe we're both staring at the moon and at that  
moment you'll know just how much I miss you.

pull up your bench right close to my ears  
play for me til weeks turn to years  
from the start we've come so far  
you'll always be my piano star

we had the world by its tail  
I had the chances and I know I failed  
you dont have to stay away so long  
cuz right back here is where you belong
