You Am I - Bitter

=====

Stroll down he's got a third chance.  
Sticky feeling of a has been  
I had my chance 'til broke my toe.  
You bag a thousand, what would you know?

But you won't see me, I'm grease lightning too.  
In my bedroom vigil punk rock indie school.

I'm in my old school with the rock club  
I meet your ego with a pen knife.  
I gotta keep my shirts clean.  
So get allowed in the fanzine.

Gonna hold my guitar high  
I was going past a big sky  
Want the words are gonna make me cry.  
So keep your eye on the pizza guy.

Keep your eye on the pizza guy.
