You Am I - The Songs They Played As I Drove Away
=====

I got from Campbelltown to Yass
On a borrowed tank of gas
And I never missed a pothole on the trail
but what really drove the nails
were the songs they played as I drove away
I wanted rock n roll all night
Or something to make the night seem like it was going
to end
That there was something to get to up around the bend
I sure hope you're out drinking with friends
tonight, as I drive away

Tonight the radio jockey he tried to kill me
Every tune was like a dull punch in the rain
Its only 270 miles to my temporary
But oh that guy he's gonna make me pay

After Flame Trees and Khe Sahn
And Solitary Man
A long time listener first time caller just won a
thousand plans
Buy some new clothes for the kids
and oh, they're gonna make me pay as I drive away

Tonight the radio jockey he tried to kill me
Every tune was like a dull punch in the rain
Its only 100 miles to my temporary
But oh that fucker's gonna make me pay

I know its late
Is it okay to call and say
You just wont believe the songs they played as I drove
away
You just wont believe the songs they played as I drove
away
Sure wish I brought a tape tonight as I drove away
