I'm driving  
It's raining  
I'm waiting  
The stop light is shining on the water  
In the gutter on the street

And the traffic  
Is so thick  
I'm so sick  
Of driving for a second then stopping  
I could be walking faster than this

The signs say I'm not too far  
From the place where it all fell apart

I hit every red light  
On my way to your place tonight  
I was stuck behind the slowest car  
All I want to be is where you are  
I hit every red light

I can taste you  
As I race to you  
To kiss you  
I hate how it ended before I left  
There was something I wanted to say

But I'm afraid  
I'll be too late  
I should have stayed  
Chances are you've already locked your door  
Turned in your keys  
Well this is not the way that I wanted to leave it

Only this would happen to me now  
Why now?

I hit every red light  
On my way to your place tonight  
I was stuck behind the slowest car  
All I want to be is where you are

Caught up in the stop and go  
There's only one thing I know  
While I'm stranded here inside my car  
All I want to be is where you are

Well you're not answering your phone  
I guess I should have known you'd be long gone by now  
I was half way out of town when I realized  
I can't leave without putting up a fight

I'm driving  
It's raining  
I'm waiting

I hit every red light  
On my way to your place tonight  
I was stuck behind the slowest car  
All I want to be is where you are

Caught up in the stop and go  
There's only one thing I know  
While I'm stranded here inside my car  
All I want to be is where you are  
It's where I want to be  
It's where I want to be  
I hit every red light  
I hit every red light  
I hit every red light  
I hit every red light
