I cannot be stopped...

Losing grip, gonna trip, cannot get back up  
Organic paintings, give her the ring, gonna set us up  
Velocity, high speed, shifting into turbo  
Encore presentation, missed the first showing, don't  
wanna miss it again

Another day, another time, another year  
Losing feeling, losing motion, losing my mind  
Examination, termination, not listening to what I hear  
Xander Cage is full of rage, Spider-Man is under attack  
Aggression, expressions, velocity

Various objects, various expressions, various times  
Examination, termination, doing what I feel  
Giving hatred, giving bruises, giving pain  
Aggression, expression, velocity

I'll take a while...

Wondering mind, ticking time, getting out of here  
Aggression, confessions, dangerous minds  
Nowhere to run, nowhere to hide, the smell of blood  
Taunting and posing, tattoos and piercings, punks are  
gonna rule

Another day, another time, another year  
Losing feeling, losing motion, losing my mind  
Examination, termination, not listening to what I hear  
Xander Cage is full of rage, Spider-Man is under attack  
Aggression, expressions, velocity

Various objects, various expressions, various times  
Examination, termination, doing what I feel  
Giving hatred, giving bruises, giving pain  
Aggression, expression, velocity

In a matter of time...

Never thinking, never hearing, someday I'm gonna die

Extreme expressions, extreme confessions, maybe  
you'll die  
Extortion, make 'em do it, make 'em tell it, make 'em  
fry  
Doubling money, doubling people, cheating at life

Another day, another time, another year  
Losing feeling, losing motion, losing my mind  
Examination, termination, not listening to what I hear  
Xander Cage is full of rage, Spider-Man is under attack  
Aggression, expressions, velocity

Various objects, various expressions, various times  
Examination, termination, doing what I feel  
Giving hatred, giving bruises, giving pain  
Aggression, expression, velocity
