I thought that I could never live
Without you in my life
I think about you deeply
Every day and night
You're on my mind, always and forever
My love for you is strong and real
My heart pounds harder and harder
When I think about you
I wouldn't stop thinking about you
Even if I had to

In my mind, I'm wherever you are at
In my mind, I'll go wherever you will go
In my mind, you are everywhere
In my mind, I see you looking back at me
In my mind, we are holding hands
In my mind, we are kissing tenderly
In my mind, it's just you and me
That's what I see

I knew I could never sleep
Without you being in my dreams
I dream about you realistically
Every minute of the night
You are in my dreams often and constantly
My dreams about you are real and true
My dreams get better and better
When I dream about you
I'll never stop dreaming about you
No, I don't want to

In my mind, I'm wherever you are at
In my mind, I'll go wherever you will go
In my mind, you are everywhere
In my mind, I see you looking back at me
In my mind, we are holding hands
In my mind, we are kissing tenderly
In my mind, it's just you and me
That's what I see

In my mind, you'll always be there...

In my mind, I'll be there with you...
In my mind...
In my mind...
In my mind...

In my mind, I'm wherever you are at
In my mind, I'll go wherever you will go
In my mind, you are everywhere
In my mind, I see you looking back at me
In my mind, we are holding hands
In my mind, we are kissing tenderly
In my mind, it's just you and me
That's what I see

In my mind, you'll always look back at me...
In my mind, we'll always be together...
In my mind...
In my mind...
In my mind...

In my mind, I'm wherever you are at
In my mind, I'll go wherever you will go
In my mind, you are everywhere
In my mind, I see you looking back at me
In my mind, we are holding hands
In my mind, we are kissing tenderly
In my mind, it's just you and me
That's what I see
