Don't let go,  
Hold on to it  
Don't let time fade  
Hold on to tomorrow  
Your future won't fade

Live free,  
Avoid the knife  
Time will tell  
Don't channel out  
Your future won't fade

This is now and this is then  
No need to worry about anything  
You know that you are here to stay  
This is how it will all go  
No need to think about what you know  
Feel like that there's life after death

You are here,  
This is now  
Don't drug out  
Days won't waste  
Your future won't fade

Life is free,  
Have no worries  
Enjoy your life  
Time won't wait  
Your future won't fade

This is now and this is then  
No need to worry about anything  
You know that you are here to stay  
This is how it will all go  
No need to think about what you know  
Feel like that there's life after death

Don't let go  
This is now  
Don't let time fade

Days won't waste  
Your future won't fade

Live free,  
Have no worries  
Time will tell  
Time won't wait  
Your future won't fade

This is now and this is then  
No need to worry about anything  
You know that you are here to stay  
This is how it will all go  
No need to think about what you know  
Feel like that there's life after death

This is now and this is then  
No need to worry about anything  
You know that you are here to stay  
This is how it will all go  
No need to think about what you know  
Feel like that there's life after death
