Now I see the way I need to go
Faster and faster, but I'm way too slow
Can you lead me and help me find
All what is gone, I left behind?
Days speed past by without any limit
Now or never, I'll find out what's in it
I need you to take down my life on display
It's bothering me each and everyday
I see the way everyone looks at me
They want me to be something that I'll never be
Tell me now what comes of my fate
Can I stop it or is it way too late?

Life on display,
Keep them away.
My life's on display,
It's not my way
Life on display,
Keep them away.
My life's on display,
Is this the price to pay?

Now I know the way to go
Yelling and screaming, it's telling me "no"
Can I follow you and watch you find
Everything needed, all that's kind?
Nights wander by slow without a trace
Sooner or later, I'll win this race
I need you to take down my life on display
It's annoying me every single day
You can see how the world looks at me
They tell me to be something I don't want to be
Watch for it now, a twist of fate
Will it be stopped or is it just too late?

Life on display,
Keep them away.
My life's on display,
It's not my way
Life on display,
Keep them away.

My life's on display,
Is this the price to pay?

I don't want my life on display,
I don't want my life on display,
Take my life off display.
I don't want my life on display,
I don't want my life on display,
Take it all away.
I don't want my...

Life on display,
Keep them away.
My life's on display,
It's not my way
Life on display,
Keep them away.
My life's on display,
Is this the price to pay?

Life on display,
Keep them away.
My life's on display,
It's not my way
Life on display,
Keep them away.
My life's on display,
Is this the price to pay?

Life on display,
Keep them away.
My life's on display,
It's not my way
Life on display,
Keep them away.
My life's on display,
Is this the price to pay?
