Can't handle the pressure,
The anger, the pain
Can't deal with everything
Not nothing, no one

Why throw your life away?
Wouldn't it make it worse?
Why throw your life away?
Is killing yourself the solution?

Can't live with the hatred,
The anger, the pain
Can't put anything behind
Not nothing, no one

Why throw your life away?
Wouldn't it make it worse?
Why throw your life away?
Is killing yourself the solution?

Die, die, die?
So, you wanna die?
Death, death, death?
You want death to come?
Why, why, why?
Will it solve anything?

It won't solve anything...
It won't solve anything...

Can't handle the pressure,
The anger, the pain
Can't deal with everything
Not nothing, no one

Can't live with the hatred,
The anger, the pain
Can't put anything behind
Not nothing, no one

Why throw your life away?

Wouldn't it make it worse?
Why throw your life away?
Is killing yourself the solution?

Suicide won't solve anything
So, don't be a quitter
Suicide will make it worst for those who care
Your family, your friends

Die, die, die?
So, you wanna die?
Death, death, death?
You want death to come?
Why, why, why?
Will it solve anything?

It won't solve anything...
It won't solve anything...
