I'm taking lives!

The cowards and the forgotten are similar in ways  
One will hide behind your back, the other will fade  
They want to use you to be remembered  
But I won't stand up for them no matter how they try  
I'm taking lives!

Just try to stop me as I fire at will  
Move aside as I'm standing here taking lives  
Don't bother trying to talk me out of this  
I will remain here firing at will because I'm taking lives  
Don't bother asking me why I'm here taking lives  
Taking, taking, lives; taking, taking, taking lives.

The liars and the sinners are one the same  
They want you to believe the tales they tell  
They will try to break you down  
But I won't stand for the bullshit they tell me  
I'm taking lives!

Just try to stop me as I fire at will  
Move aside as I'm standing here taking lives  
Don't bother trying to talk me out of this  
I will remain here firing at will because I'm taking lives  
Don't bother asking me why I'm here taking lives  
Taking, taking, lives; taking, taking, taking lives.

Forget them now  
They are the scum of the Earth  
Forever lost in a maze they forget the way through  
They are in the way of letting everyone  
Reach their dreams

The losers and the rebels are dangerous to our health  
Losers are the winners who lost and the rebels were  
bad since birth  
They want you to join them in their quest  
But I won't let them take me and join their fucking  
games  
I'm taking lives!

Just try to stop me as I fire at will  
Move aside as I'm standing here taking lives  
Don't bother trying to talk me out of this  
I will remain here firing at will because I'm taking lives  
Don't bother asking me why I'm here taking lives  
Taking, taking, lives; taking, taking, taking lives.

I'm taking lives!
