I'm a lost hope but I won't let them get me
Drench out the fear of the other life out of my dreams
They will not catch me while I'm asleep
I hide under the covers hoping not to be seen
Away from the fire so I cannot wake the devil up
I rise to awake to the evil grin upon me
I look around and notice something isn't right here
I'm here but he's not, oh, where can he be?

And they say that I don't know what I'm doing
But I know in my head that they are confusing
Because they know how far I'm going to be going
They have it in for me and they say I'm troubled
And they say that I don't know what I'm doing
But I know in my head that they are confusing
Because they know how far I'm going to be going
They have it in for me and they say I'm troubled

The other side of my head is lost in a cage with no key
to be found
Shackled up with no where's to go or a place to hide
Awake now but soon you shall sleep in the fire
Turn yourself in and the innocence of I shall be
damaged
I am the true one of the two but your madness will
criminalize me
The cure is around but it's harder and harder to find it
But in the end will it matter for they say that I'm
troubled

And they say that I don't know what I'm doing
But I know in my head that they are confusing
Because they know how far I'm going to be going
They have it in for me and they say I'm troubled
And they say that I don't know what I'm doing
But I know in my head that they are confusing
Because they know how far I'm going to be going
They have it in for me and they say I'm troubled

Darkness rises and you slay upon those I love
You dirty and sick criminal how could you do that to

them?

Enraged in myself it sickens me to a messy vomit
beneath me

It's you who needs the help I was fine before you came
along

You aren't in control of me anymore it is I who makes
the choices

Drugged me to releases the darkness that is you I wish
wasn't there

That doctor was only helping me

Deep

Can you see this?

Dismantle the bodies

Just tell me why

It's me who is getting punished

Just please back off

Get the hell out of my head

And they say that I don't know what I'm doing

But I know in my head that they are confusing

Because they know how far I'm going to be going

They have it in for me and they say I'm troubled

And they say that I don't know what I'm doing

But I know in my head that they are confusing

Because they know how far I'm going to be going

They have it in for me and they say I'm troubled
