My heart pounds harder and harder
When I only look at you
My voice only studders
When I try to talk to you
My knees get weak and my hands start to shake
I'm feeling something for you
It's hard to walk
When I walk past you
It feels as if I can barely breathe
When I even hear you talk
I'm feeling something for you

And this is to you
I love you
I don't want to go a day without seeing you
This is to you
I need you
I don't wanna miss a day without being with you
And this is to you
I love you
I don't want to go a day without seeing you
This is to you
I need you
I don't wanna miss a day without being with you

My body get weaker and weaker
When I only dream of you
My shoulders feel heavier
When I even think of you
My knees get weak and my hands start to shake
I'm feeling something for you
It's hard to talk
When I talk to you
It feels like I can barely walk
When I even walk by you
I'm feeling something for you

And this is to you
I love you
I don't want to go a day without seeing you
This is to you

I need you
I don't wanna miss a day without being with you
And this is to you
I love you
I don't want to go a day without seeing you
This is to you
I need you
I don't wanna miss a day without being with you

And this is to you
I love you
I don't want to go a day without seeing you
This is to you
I need you
I don't wanna miss a day without being with you
And this is to you
I love you
I don't want to go a day without seeing you
This is to you
I need you
I don't wanna miss a day without being with you

My love won't fade away
My love will always stay
I love you
I love you
My love won't fade away
My love will always stay
I love you
Oh forever, baby, I love you

And this is to you
I love you
I don't want to go a day without seeing you
This is to you
I need you
I don't wanna miss a day without being with you
And this is to you
I love you
I don't want to go a day without seeing you
This is to you
I need you
I don't wanna miss a day without being with you

And this is to you
I love you
I don't want to go a day without seeing you
This is to you
I need you
I don't wanna miss a day without being with you
And this is to you

I love you
I don't want to go a day without seeing you
This is to you
I need you
I don't wanna miss a day without being with you

And this is to you
I love you
I don't want to go a day without seeing you
This is to you
I need you
I don't wanna miss a day without being with you
And this is to you
I love you
I don't want to go a day without seeing you
This is to you
I need you
I don't wanna miss a day without being with you
