Talking,
Thinking out loud
Screaming,
Out a different name
Walking,
Away from this
Running,
Scared of rejection
Hoping,
For a new day
Wishing,
Things were a different way
Looking,
Around to see nothing
Thinking,
Talking in your head

Denial,
Everything is wrong
Crying,
Rejecting it all
Fainting,
You're in disbelief
Naming,
Reasons for breaking
Turning,
Around to walk away

So turn around and walk away
Because there's no more to this story
Turn around and walk away
Because there's no more you and me, baby

Hinting,
Broken promises
Dodging,
A shattered heart
Lying,
Straight to my face
Cheating,
Behind my back

Questioning,
A greater cause
Answering,
This world of questions
Joking,
About my past
Thanking,
For everything

Denial,
Everything is wrong
Crying,
Rejecting it all
Fainting,
You're in disbelief
Naming,
Reasons for breaking
Turing,
Around to walk away

So turn around and walk away
Because there's no more to this story
Turn around and walk away
Because there's no more you and me, baby

So turn around and walk away
Because there's no more to this story
Turn around and walk away
Because there's no more you and me, baby

So turn around and walk away
Because there's no more to this story
Turn around and walk away
Because there's no more you and me, baby

Now there's no more
So turn around and walk away
Now this is over
Turn around and walk away
