I still feel you're with me  
Are you still there?  
I smell the roses from your pillow  
The faint aroma  
The ashes from the fire  
They're still glowing  
And I think I found the answer  
To where we're going

We're going here  
We're going here  
We're going here  
And we're no where near

I am weakened  
Moving from this  
I am moving

We're going here  
We're going here  
We're going here  
And we're no where near

I still feel you're with me  
And I think I found the answer  
To where we're going

We're going here  
We're going here  
We're going here  
And we're no where near
