Sooner or later,
It'll drive me insane
So, I've got to know,
What's making these feelings?

I don't know why but,
When I see your face,
I get so crazy
I can't understand why but,
When I hear you talk,
My heart beats crazy

Why do I feel like this,
When I see your face?
I don't understand anything like this
My mind just goes blank,
When I see your face

My thoughts go out of place,
When I see your face

I can't understand why but,
When I see your face,
My knees get so weak
I don't know why but,
When I hear your voice,
My brain thinks too weak

Why do I feel like this,
When I see your face?
I don't understand anything like this
My mind just goes blank,
When I see your face

My sight goes out of place,
When I see your face

Sooner or later,
It'll drive me insane
So, I've got to know,
What's making these feelings?

Why do I feel like this,
When I see your face?
I don't understand anything like this
My mind just goes blank,
When I see your face

Why do I feel like this,
When I see your face?
I don't understand anything like this
My mind just goes blank,
When I see your face

When I see your face my thoughts go out of place
When I see your face my sight goes out of place
When I see your face

Sooner or later,
It'll drive me insane
So, I've got to know,
What's making these feelings?

Why do I feel like this,
When I see your face?
I don't understand anything like this
My mind just goes blank,
When I see your face

When I see your face...
When I see your face...
